

## Michigan Flower Farm Estimated Bloom Times

Approximate Bloom Times – Some flowers depend heavily on climate to determine when they will bloom. This is especially apparent at the beginning of their bloom cycle. At the end of the bloom cycle, most importantly through the month of October, frosts and freezes can end the bloom cycle. Please note blooms times are an estimation only.

Please visit [michiganflowerfarm.com](http://michiganflowerfarm.com) for more information – Thanks!
